Profile

Curiosity drives me and I firmly believe that it leads to new doors and opens hearts. It's about a mindset of looking at the world in a playful, open and creative way. I strive to learn something new every day and love to interact with people to create innovative solutions at the intersection of design, business and technology.

Skills

I love being involved in the end-to-end design process, from user research and business requirements to idea generation, prototyping, running workshops and the design of high-fidelity user interfaces. I'm also super happy to touch code from time to time.

Shillington Education US

Mar 2014 – Jul 2014, New York, USA

Mediamatics

SBW Neue Medien AG

Aug 2005 – Jul 2009, Romanshorn

Traits

I am an advocate of practical learning and love to do this through side projects.

I created a social app for travelers (bit.ly/2CDZGnT) and had the chance to work with Google. I also built a magic mirror (bit.ly/3eQLbKv), a prototype of a virtual reality bank (bit.ly/2WJEgNf), and a mobile app for my football club (bit.ly/3hpUCIO).
